Ways Of The World A Brief Global History With Sources Volume Ii Introduction

Ways of the World, Volume 2

Ways of the World is one of the most successful and innovative textbooks for world history. The brief-by-design narrative is truly global and focuses on significant historical trends, themes, and developments in world history. Authors Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, along with new co-author Eric W. Nelson, a popular and skilled teacher, provide a thoughtful and insightful synthesis that helps students see the big picture while teaching students to consider the evidence the way historians do.

Ways of the World: A Brief Global History, Volume II

Zeroing in on compelling historical trends, themes, and developments in world history, Ways of the World: A Brief Global History, Volume II focuses on the big picture of history as you learn to consider evidence the way historians do.

Ways of the World Volume 2/ The Bedford Glossary for World History

Ways of the World is one of the most successful and innovative textbooks for world history. This 2-in-1 textbook and reader includes a brief-by-design narrative that is truly global and focuses on significant historical trends, themes, and developments in world history. Authors Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, along with new co-author Eric W. Nelson, a popular and skilled teacher, provide a thoughtful and insightful synthesis that helps students see the big picture while teaching students to consider the evidence the way historians do.

Loose-leaf Version for Ways of the World: A Brief Global History with Sources, Volume II

Ways of the World is one of the most successful and innovative textbooks for world history. This 2-in-1 textbook and reader includes a brief-by-design narrative that focuses on significant historical developments and broad themes in world history. With keen consideration of the needs of their student audience, authors Robert W. Strayer and Eric W. Nelson provide an insightful, big picture synthesis that helps students discern what matters most in world history--patterns and variations on both global and regional levels and continuity and change over time. With the same personal touch, the authors guide students to consider primary and secondary source evidence the way historians do. Available for free when packaged with the print book, the popular digital assignment options for this text bring skill building and assessment to a highly effective level. The active learning options come in LaunchPad, which combines an accessible e-book with LearningCurve,

an adaptive and automatically graded learning tool that—when assigned—helps ensure students read the book; the complete companion reader with Thinking through Sources digital exercises that help students build arguments from those sources; and many other study and assessment tools. For instructors who want the easiest and most affordable way to ensure students come to class prepared, Achieve Read & Practice pairs LearningCurve adaptive quizzing and our mobile, accessible Value Edition e-book, in one easy-to-use product.

Ways of the World with Sources, Volume 2

The source for world history - narrative and primary sources in one book Ways of the World is one of the most successful and innovative new textbooks for world history in recent years. This 2-in-1 textbook and reader includes a brief-by-design narrative that is truly global and focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, provides a thoughtful and insightful synthesis that helps students see the big picture. Ways of the World: A Brief Global History with Sources, Volume II

Ways of the World: A Brief Global History with Sources is a docutext combining a brief narrative with written and visual primary source collections, providing the convenience of a text and reader in one volume. Ways of the World is thoroughly global in its thematic and comparative approach. The brief narrative highlights major developments, giving students and instructors the room to explore the primary sources fully. Students can connect with Strayer's distinctive voice and clear, powerful writing. A thoughtful prologue and part-opening essays emphasize the book's "big picture" approach, and each chapter narrative ends with "Reflections," a consideration of history and the human enterprise it explores.

Ways of the World: A Brief Global History with Sources

Designed as a companion reader to accompany Ways of the World, each chapter of Thinking through Sources for Ways of the World contains a Thinking through Sources project of six to eight carefully selected written and visual primary sources organized around a particular theme, issue, or question. Each of these

projects is followed by a related Historians' Viewpoints secondary source feature, which pairs two brief excerpts from historians who comment on some aspect of the topics covered in the primary sources. Each source feature is accompanied by incisive questions to guide students' skillful examination of the sources. Headnotes and questions to consider before each document help students approach the documents, and essay questions at the end of each chapter provide a starting point for classroom discussion or a written assignment. Thinking through Sources for Ways of the World is FREE when packaged with Ways of the World, and is included for FREE with ACHIEVE: Read and Practice, and in the LaunchPad for Ways of the World. In LaunchPad, innovative auto-graded exercises accompanying the Thinking through Sources projects supply a distinctive and sophisticated pedagogy that not only help students understand the sources but think critically about them. Thinking through Sources for Ways of the World is also available to customize through Bedford Select.

Ways of the World, Volume 1

Methods in World History is the first international volume that systematically addresses a number of methodological problems specific to the field of World History. Prompted by a lack of applicable works, the authors advocate a considerable sharpening of the tools used within the discipline. Theories constructed on poor foundations run an obvious risk of reinforcing flawed assumptions, and of propping up other, more ideological constructions. The dedicated critical approach outlined in this volume helps to mitigate such risks. Each essay addresses a particular issue, discussing its problems, giving practical examples, and offering solutions and ways of overcoming the difficulties involved. The perspectives are varied, the criticism focussed, and a common theme of coalescence is maintained throughout. This unique anthology will be of great use to advanced scholars of World History, and to students entering the field for the first time.

Ways of the World: A Brief Global History with Sources, Volume 2: Since 1500

Comparisons, Connections, & Change-contexts for the particulars Ways of the World is the textbook preferred by AP World History teachers and students across North America. Like the AP course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer provides a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources (written and visual) organized around a particular theme, issue, or question, thus allowing students to consider the evidence the way historians do. The second edition includes a wealth of supporting resources and supplements for the AP course, including an AP Skills Primer and AP Chapter Wrap-Ups, and rolls out Bedford/St. Martin's new digital history tools, including LearningCurve, an adaptive quizzing engine that garners over a 90% student satisfaction rate, and LaunchPad, the all new interactive e-book and course space that puts high quality easy-to-use assessment at your fingertips. Featuring video, additional primary sources, a wealth of adaptive and summative quizzing, and more, LaunchPad cements student understanding of the text while helping them make progress toward learning outcomes. It's the best content joined up with the best technology.

Loose-leaf Version for Ways of the World: A Brief Global History

Focusing on significant historical trends, themes, and developments in world history, Ways of the World: A Brief Global History with Sources, Volume I shows you the big picture of history as you learn to consider evidence the way historians do.

Thinking Through Sources for Ways of the World, Volume 2

"A higher education history textbook on World History"--

Thinking Through Sources for Ways of the World: a Brief Global History, Fourth Edition: Since the fifteenth century

A panoramic global history of the nineteenth century A monumental history of the nineteenth century, The

Transformation of the World offers a panoramic and multifaceted portrait of a world in transition. Jürgen Osterhammel, an eminent scholar who has been called the Braudel of the nineteenth century, moves beyond conventional Eurocentric and chronological accounts of the era, presenting instead a truly global history of breathtaking scope and towering erudition. He examines the powerful and complex forces that drove global change during the "long nineteenth century," taking readers from New York to New Delhi, from the Latin American revolutions to the Taiping Rebellion, from the perils and promise of Europe's transatlantic labor markets to the hardships endured by nomadic, tribal peoples across the planet. Osterhammel describes a world increasingly networked by the telegraph, the steamship, and the railways. He explores the changing relationship between human beings and nature, looks at the importance of cities, explains the role slavery and its abolition played in the emergence of new nations, challenges the widely held belief that the nineteenth century witnessed the triumph of the nation-state, and much more. This is the highly anticipated English edition of the spectacularly successful and critically acclaimed German book, which is also being translated into Chinese, Polish, Russian, and French. Indispensable for any historian, The Transformation of the World sheds important new light on this momentous epoch, showing how the nineteenth century paved the way for the global catastrophes of the twentieth century, yet how it also gave rise to pacifism, liberalism, the trade union, and a host of other crucial developments.

Ways of the World with Sources, Combined Volume

Distinguishing four sources of power in human societies - ideological, economic, military and political - 'The Sources of Social Power' traces their interrelations throughout human history. Volume 2 deals with power relations between the Industrial Revolution and the First World War.

Ways of the World

With sources from around the globe, this ... reader offers ... balanced coverage of the events and developments that shaped the twentieth century. Special attention is devoted to women's activism, including their statements against Chinese footbinding; unfair educational and work opportunities in Egypt; the Indian dowry system; and abortion restrictions under Stalin. Treaties, laws, speeches, literature, political tracts, letters ... and more make for [a] diverse ... pool of primary sources.-Back cover.

Methods in World History

American Horizons is the only U.S. History survey text that presents the traditional narrative in a global context. The seven-author team uses the frequent movement of people, goods, and ideas into, out of, and within America's borders as a framework. This unique approach provides a fully integrated global perspective that seamlessly contextualizes American events within the wider world. The authors, all acclaimed scholars in their specialties, use their individual strengths to provide students with a balanced and inclusive account of U.S. history. Presented in two volumes for maximum flexibility, American Horizons illustrates the relevance of U.S. history to American students by centering on the matrix of issues that dominate their lives. These touchstone themes include population movements and growth, the evolving definition of citizenship, cultural change and continuity, people's relationship to and impact upon the environment, political and ideological contests and their consequences, and Americans' five centuries of engagement with regional, national, and global institutions, forces, and events. In addition, this beautifully designed, full-color book features hundreds of photos and images and more than one hundred maps. American Horizons contains ample pedagogy, including: * America in the World, visual guides to the key interactions between America and the world * Global Passages, which feature unique stories connecting America to the world * Visual Reviews providing post-reading summaries to help students to connect key themes or events within a chapter * Maps and Infographics that explore essential themes in new ways

Ways of the World with Sources for AP*, Second Edition

Patterns of World History comes to the teaching of world history from the perspective of innovation as the engine driving historical change. If we consider innovation to be a driving force of history, it helps satisfy an intrinsic human curiosity about origins - our own and others. Perhaps more importantly, seeing patterns of innovation in historical development brings to light connections and linkages among peoples, cultures, and regions that might not otherwise present themselves. At the same time such patterns can also reveal differences among cultures that other approaches to world history tend to neglect. Through a distinct framework for understanding the global past through the study of origins, interactions, and adaptations, this text examines the full range of human ingenuity over time and space in a comprehensive, even-handed, and critical fashion.

Ways of the World: A Brief Global History with Sources, Volume I

Designed as a companion reader to accompany *Ways of the World Since 1200*, each chapter contains a DBQ-like project of six to eight carefully selected written and visual primary sources organized around a particular theme, issue, or question. Each project is then followed by related secondary sources. Source include headnotes and questions intended to assist students in developing the skills required to read, analyze, and write about sources. Essay questions at the end of each chapter provide a starting point for classroom discussion or a written assignment.

World in the Making
